

Community Building Program Options

Develop a stronger sense of community and togetherness among your group. Modeled by our staff and fostered by faith-based community building activities, participants will walk away with a greater capacity to encourage one another, pray, communicate lovingly, share, and support each other in service - key elements of a strong Christian Community. (Can be modified for non-faith based groups)

Circuit Course: The circuit course appears to be very similar to an obstacle course, except this course cannot be completed alone. To complete the circuit course, a participant must be accompanied by two others who are there to look out for the participant's safety. This is a great exercise in servant leadership.

Climbing Wall (5 years & 40 lbs): It takes a lot of encouragement for a participant to climb up our 35 foot climbing wall. The climber is not there alone, the whole group will help support the climber as they complete this challenge.

Cooperative Games: Participants will play various games which emphasize working together rather than competition. This class helps students transition into the camp experience through fun & laughter.

Ground Based Initiatives: The first level of teambuilding, the ground based initiatives are puzzle-like challenges participants must overcome together. These facilitated scenarios bring to the surface group dynamics that can be processed by staff in order for the students to learn leadership & teamwork skills.

High Ropes Course (13 years old & up): Participants will have an opportunity to step out of their comfort zone while climbing to new heights on our high ropes course. The whole group has jobs to support & encourage each other.

Low Challenge Course: (pre-requisite Ground Based Initiatives): After working on their teamwork in ground based initiatives, participants will enter the Sonrisa Challenge Course. They will be able to explore the skills of leadership & teamwork on various low elements in a deeper way.

Zoom: In this challenge, participants each have one small piece of the pictorial story & must work together to put it all in order using clear communication, patience, & leadership.

Spiritual Faith Formation: Setting Priorities, Affirmations, Power of Prayer, etc. AND Recreation: Archery, Canoeing & Fishing, Crafts, etc. are also available for Community Building programs.
