

KINDERGARTEN-3RD GRADE PROGRAMS

These experiential education programs are designed for younger students to have hands-on activities in nature. There are three, one day programs to choose from however, programming can be adjusted to accommodate an overnight experience.

1. The Science of the Seasons---Why do leaves turn colors? What do animals do in winter?
 - Tracks, Shacks & Signs (tracking & camouflage activity)
 - Plant Power
 - Predator Prey(speed, thinking, adaptations)
 - Nature Frames
2. Living History---How did people live before electricity?
 - Pioneer cooking (homemade butter and biscuits)
 - Native American lore (storytelling and performance)
 - Native American games (speed, agility, concentration)
 - Candle making (dip method, multiple colors)
3. Faith and Art in Nature---How does God reveal Himself in what He made? Why do we create?
 - Walk in the woods (sensory hike through forest)
 - Storytelling and songs (collaborative, interactive)
 - Parable Players (learning faith thru acting)
 - Nature crafts (fall= wreaths, spring= nature frames)
